Some Success Stories ...

Biblical view preserved ...

A young teacher shared that when she was a little girl, someone from LFL showed baby stages of growth models in her school. She related that "it had a profound effect upon me then and I have never forgotten it." She further said how understanding that value helped her make good decisions in her teen years and how she teaches the same every chance she gets.

A Life Saved ...

A pastor shared that an LFL poster in their congregation had saved the life of at least one precious baby. A mom told him tearfully that she had considered a different choice even though she knew it was wrong in God's eyes. This would not have happened were it not for this simple LFL resource available to all.

Two Lives Saved ...

A Word of Hope volunteer received a call early in the morning from a woman crying. She was pregnant, hopeless and alone. The caller had a previous pregnancy which she aborted. The young lady related how it was devastating and couldn't do it again. She felt her only option was to end her life by driving off bridge. She then saw an LFL billboard which told her to call our number for help. For three months in follow up, she was counseled through her pregnancy. Today, she has a beautiful baby that she loves.

A Life Saved – for Eternity ...

One caller to Word of Hope said, "I would still be lost today if I hadn't called ... My life has changed. Christ has cleansed me. I no longer need drugs and alcohol to fill the void I had from my abortion. My sins have been covered by His atoning blood. If I had never had the opportunity to receive that hope and counsel, I would still be lost today ..."
