A paper published in April by a leading medical journal estimated that 13.5 million or more baby girls were aborted in sex-selective abortions in India between 1987 and 2016. While India outlawed sex-selective abortion in 1994, it has remained a common practice, and it is responsible for approximately fifty per cent of the world’s “missing female births.” Researchers also admitted that they may have underestimated the “true extent” of missing female births by applying the conservative natural ratio of 950 girls per 1,000 boys. When they tested a ratio of 975 girls per 1000 boys, they calculated over 22 million missing girls at birth. (*Right to Life UK, 5/21/21; CLR LifeWire, 5/27/21*)

Speaking up For Life

“As you love the Savior, and through Him the members of your family, seek to remember how it is when Christ attends a wedding. He is not only to be a permanent and prominent Guest in your home; He should be its most visible centerpiece, enriching your marriage and empowering your relationships with others.” *Rev. Dr. Armin Oldsen, former speaker of The Lutheran Hour*

“So how do we handle Father’s Day? First, thank God for your father and for any lessons he taught you, either through positive or negative actions. (If Dad is still around, thank him, too.) Second, thank your Father God that He fills in all the gaps where earthly fathers don’t always measure up.” *Linda Kerr, Time of Grace*

“[T]he family is universal. Individuals meeting from different cultures do not have to explain to each other what a family is. The family lies at the quantum level of human society. Family life is deeply rooted in an area of mystery we do not fully understand. Like a tree, it is living, rooted, and nourished by the soil of the past and reaching up into the future. It is not manufactured. Although socially reinforced, it is not ‘socially constructed.’ It is a precious Gift.” *James M. Kushiner, The Fellowship of St. James*
