Recently, Liberty Counsel Action (LCA) has urged the federal government to expand health insurance plans to prioritize diagnosing and treating the underlying causes of infertility rather than adding coverage for in vitro fertilization (IVF). In May 2026, the Internal Revenue Service, the Department of Labor, and the Department of Health and Human Services jointly issued a proposed federal rule, “Expected Fertility Benefits,” which proposes establishing a new category of fertility benefits that would make it easier for employers to offer insurance coverage for IVF treatments through “standalone or specialty offerings.” The rule stems from President Donald Trump’s February 2025 executive order 14216 to expand access to IVF ... LCA asserts that Restorative Reproductive Medicine (RRM) is a better alternative to IVF because it takes a more “holistic” approach to patient care by identifying and treating the causes of infertility, such as endometriosis, hormonal imbalances, and other reproductive health conditions. LCA recommended the federal government prioritize RRM as a primary fertility benefit rather than bypassing these problems and resorting to IVF, which can be more expensive, more invasive, and is laced with ethical concerns related to embryo creation, freezing, selection, and destruction. (lifeneews.com/2026/07/21/pro-life-group-wants-more-ethical-limits-and-regulations-on-ivf)

Speaking up For Life

“Never apologize for sharing God’s Word. Never excuse holding or defending a godly position that clearly states how a life issue stands according to Scripture. Abortion is wrong, as is assisted suicide, and many other life issues happening in our world.”
Volunteer Relations, Lutherans For Life

“We stand together, one in mind and heart, and with one voice, in defense of the lives of our unborn children—God’s precious little ones. Yet, what we stand for is not only the lives of these precious unborn children but also the moms, the dads, the grandmas and grandpas, the young and the old, the healthy and the sick and dying. What we stand for is the very value—the very gift—of life itself.”
Pastor Paul Clark, LFL of Michigan

“God created every one of us to shine brightly in the world He made for us. Each person is a candle, sustaining His light to share with others. When a baby is aborted, his or her candle is extinguished. Clearly, that is not what God wants for us. None of us is unimportant to God; He cares about all of us, no matter our size, age, parents, gender, or disabilities. Every candle has a special purpose God designed.” *Christina, Missouri, Lutherans For Life Essay Contest*

THE RIGHT TO LIFE

BY REV. DR. ARIC FENSKE

On July 4, we celebrated the 250th anniversary of the ratification of the Declaration of Independence. During those 250 years, God has blessed this nation of ours with many and various blessings, not the least of which is the ability to hear His Word and worship Him unhindered by the threat of punishment. To paraphrase Luther, God has certainly provided our nation with ample reason to “thank, praise, serve, and obey Him.”

Sadly, we know that there are many citizens who use their freedom to not thank, praise, serve, or obey God. This past week, as I contemplated the history of our nation and the signing of the Declaration of Independence, I couldn’t help but notice a bit of irony. As most of you surely remember, the Preamble to the Declaration of Independence begins with these famous words:

“We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty, and the pursuit of Happiness.”

The entire American experiment was founded on the truth that each person has been endowed by God with the right to life.

Yet, as much of the country celebrated the freedoms we enjoy because we hold these truths to be self-evident, we know that millions of our brothers and sisters are denied that most basic right! How many children are never given the right to live beyond the first few weeks of their fragile existence? How many injured or aged people have life snatched away from them because of medical malpractice or end-of-life ethics run awry?

None of us truly know how long this nation will exist or whether it will still remain on the day of Christ’s return. But we do know that as long as we are part of it, we are to thank God for the blessings He grants to us as members of this great nation. We also know that it is our duty to pray to God for our nation and its leaders, by imploring Him to continue to watch over and preserve it. As children of our Heavenly Father, we know that those prayers must certainly include petitions for God to put an end to the vile practices of abortion and assisted suicide, along with all the other wicked things that accompany them, including all forms of sexual immorality. In the end, we know that it is only by the grace of God and through His power that these evils will be cleansed from our national life.

However, we also know that God uses means to accomplish His will on earth. You are those means (at least in part). As long as God permits us to do so, Lutherans For Life will continue to equip our neighbors to be Gospel-motivated voices for life. Yet this is only possible because of your generous and faithful support. Thank you for helping us share Jesus’ great Gospel of life in hopes that God will lead our entire nation and the world to uphold the God-given right to life. May God grant it for Jesus’ sake! Amen.
